

Seun Eisape

Machine Learning, Brain Computer Interfaces, Cognitive Science, Natural language processing
seisape@haverford.edu

Education

- 2020 – Haverford College, B.S. Computer Science
Advisors: Daniel Grodner, Alvin Grissom II, Xiaodong Qu, Joshua Hartshorne

Research

- 2023 – Brain-Computer Interfaces Lab
Mentor: Xiaodong Qu (Swarthmore College)
- 2022 – Cognitive Science/Semantics Lab
Mentor: Daniel Grodner (Swarthmore College)
- 2022 – Machine Translation Lab
Mentor: Alvin Grissom II (Haverford College)
- 2021 – Language Learning Lab
Mentor: Joshua Hartshorne (Boston College)

Employment

- 2023 – Ask Media Group Applied Machine Learning, Research Intern

Papers

- 2023 – **Eisape, S.**, & Grodner, D. (in prep - to be submitted in December). Priming the Unsaid: Using context to model alternative speaker utterances in pragmatic inferencing. In *Experiments in Linguistic Meaning* (ELM).
- 2023 – **Eisape, S.**, & Grissom II, A. (in prep - to be submitted in December). An Examination of the Sensitivity of Transformer-based Machine Translation Models to Simple Linguistically-motivated Perturbations. In *Transactions on Machine Learning Research* (TMLR).

Talks

- 2023 – "Priming the Unsaid: A Study of How People Read Between the Lines." KINSC Research Symposium, Haverford, PA, September 2023.
- 2023 – "Brain-Computer Interfaces: Using Machine Learning to Decode Brain Signals." Chesick Scholar Symposium, Haverford, PA, September 2023.
- 2022 – "Examining Semantic Negation in Diffusion Models for text-to-image generation." Deep Learning for Computer Vision Course, Haverford, PA, October 2022.

Honors

- 2023 – KINSC/Velay Fellow
- 2023 – Chesick Scholar Summer Fellow
- 2023 – InterActiveCorp Academic Scholarship
- 2022 – InterActiveCorp Foundation Fellow
- 2021 – Diversity Fellow, Boston University Conference on Language Development

Teaching

Undergraduate courses

- 2023 – CS260 - Data Science (Haverford College)
- 2023 – CS105 - Introduction to Computer Science (Haverford College)

Relevant Coursework

- 2022 – Course: *Independent Study in Computer Science*
- 2022 – Course: *Independent study in Computational Cognitive Science*
- 2022 – Course: *Advanced Topics in Machine Learning: Deep Learning for Computer Vision*
- 2022 – Course: *Speech Synthesis & Recognition*
- 2022 – Self-Study: *Pattern Recognition and Machine Learning*, by Christopher Bishop

Professional Service

- 2023 – Discrete Math Tutor, Chester Correctional Facility
